THE TIME FOR CHANGE IS NOW, AND TEXAS SCHOOLS ARE LEADING THE WAY!

"New policies are urgently needed to ensure that all foods and beverages available at schools are consistent with nutrition guidelines."

Report by the Institute of Medicine, commissioned by the U.S. Department of Health and Human Services

"At the state level, the most comprehensive nutrition standards have been developed by West Virginia, California and Texas."

Making It Happen: School Nutrition Success Stories, National Center for Chronic Disease Prevention and Health Promotion

"This is really the beginning of a major effort to modify childhood obesity at the level of the school systems."

Robert H. Eckel, president of the American Heart Association, quoted by ABC News in response to the decision of the nation's largest beverage distributors to halt nearly all soda sales to public schools

Comments from a 2006 survey of Texas school administrators and child nutrition directors:

"Texas has always been ahead of the game, and being able to slowly adopt the changes made it easier. The students didn't have big changes to deal with and hardly noticed we no longer fry, offer fried chips, and other FMNV."

- "No longer frying foods initially caused disappointment among staff (we're known for our fried chicken!), but the truth is, the cafeteria staff has made up the difference with great tasting alternatives. Great things ARE happening, and admittedly, I was the biggest nay-sayer initially."
- "Teachers use more instructional incentives such as pencils, rulers, etc., rather than candy for incentives. This policy required teachers to think outside the box and do what is nutritionally best for students."
- "It is very encouraging to see students in the lunch line selecting healthier foods as well as hearing them tell what constitutes a balanced meal under TPSNP."
- "Fresh fruits and vegetables are available daily at the high school, and the kids can't get enough!"
- "Since the new policy went into place we have started packaging and selling more fresh fruits and vegetables at the high school. Our sales in that area have really increased."
- "The child nutrition program has gained a very popular reputation as 'one of healthy and delicious' foods."
- "Parents are bringing fruit and vegetable trays for children for birthday celebrations and are happy about the changes."
- "More students are eating the reimbursable meal because parents are more aware of the value and the nutrition of school meals."

WE'RE HERE TO HELP!

Through the Square Meals initiative funded by the U.S. Department of Agriculture, Food and Nutrition Service, the Texas Department of Agriculture provides a wealth of materials and resources to promote healthy eating to students and their families—from eye-catching cafeteria posters and non-food reward kits to take-home flyers

and nutritious recipes. To request materials online, go to **www.squaremeals.org** and click on the tab "Resources and to Order Materials" to access the online ordering page. You can also visit the site to download a complete copy of the Texas Public School Nutrition Policy along with clarifications on frequently asked questions and more.

NUTRITION POLICY EXEMPTIONS

WHERE & WHEN

NUTRITION POLICY

Elementary School Classroom Snacks

Elementary classrooms may serve one nutritious snack per day in the morning or afternoon (not during regular meal periods for that class) under the teacher's guidance. The classroom snack may be provided by the school food service, the teacher, parents or other groups and should be at no cost to students. Prepackaged snacks must comply with the fat and sugar limits of the Texas Public School Nutrition Policy, and must be single-size servings. All snacks (homemade and prepackaged) may not contain any FMNVs or consist of candy or dessert type items (cookies, cakes, cupcakes, pudding, ice cream or frozen desserts, etc.). For nutritious snack ideas, see TDA's listing of "Suggestions for Nutritious Snacks," available on request and at www.squaremeals.org.

Elementary Classroom Birthday Parties

Foods otherwise restricted by the policy are permitted at student birthday parties. It is recommended such parties be scheduled after the end of the class's lunch period so that these celebrations will not replace a nutritious lunch.

Snacks for TAKS Test Days

Schools and parents may provide one additional nutritious snack per day for students taking the TAKS tests. As with classroom snacks, these must comply with the limits outlined in the Public School Nutrition Policy. For healthy snack ideas, see TDA's listing of "Suggestions for Nutritious Snacks," available on request and at www.squaremeals.org.

Field Trips, Athletic, UIL, Band and Other Competitions

The nutrition policy does not apply to students who leave campus for campus-approved field trips or to travel to athletic, UIL, band or other competitions. The school day is considered to have ended for these students. School activities, athletic functions, etc. that occur after the normal school day are not covered by the policy.

Other

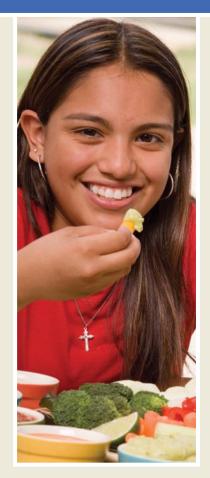

Certain exemptions are allowed for school nurses, students with special needs and up to three school wide events preapproved by campus officials. (NOTE: Federal regulations do not allow FMNVs to be sold or given away during meal periods where reimbursable meals are served/consumed, including during any exempted events.)

COMPLIANCE AND PENALTIES

Please be aware that stricter penalties are now in place when violations of the Texas Public School Nutrition Policy are identified. Please refer to the full policy at **www.squaremeals.org** for further details on compliance and penalties.

Texas Public School Nutrition Policy Implementation Schedule

Four-Year Plan: 2006-2010
