

Set up Weatherford ISD email on an Android

1. From the **Applications** menu, select **Email**. This application may be named **Mail** on some versions of Android.
2. Select the Menu Button and Select **Settings**
3. Click the + button to add a new account
4. Type your full email address, for example cle@weatherfordisd.com, and your password, and then select **Next**.
5. Select **Exchange account**. This option may be named Exchange ActiveSync on some versions of Android.
6. Enter the following account information and select **Next**.
 - **Domain\Username** Type your **WFORD\Your_Username** in this box. If **Domain** and **Username** are separate text boxes in your version of Android, enter **WFORD** in the **Domain** box and type your **Username** in the **Username** box.
 - **Password** Use the password that you use to access your account.
 - **Exchange Server** Enter **email.weatherfordisd.com** in this box.
5. As soon as your phone verifies the server settings, the **Account Options** screen displays. The options available depend on the version of Android on your device. The options may include the following:
 - **Email checking frequency** The default value is Automatic (push). When you select this option, email messages will be sent to your phone as they arrive. We recommend only selecting this option if you have an unlimited data plan.
 - **Amount to synchronize** This is the amount of mail you want to keep on your mobile phone. You can choose from several length options, including One day, Three days, and One week.
 - **Notify me when email arrives** If you select this option, your mobile phone will notify you when you receive a new email message.
 - **Sync contacts from this account** If you select this option, your contacts will be synchronized between your phone and your account.
6. Select **Next** and then type a name for this account and the name you want displayed when you send e-mail to others. Select **Done** to complete the email setup and start using your account.
